## DEAD BODY OF BENTON IS CRUX

Villa's Refusal to Turn Over Corpse Arouses England—Bryan Plainly Worried

NEW ORDERS TO LETCHER: BORDER SITUATION TENSE

Rumored Troops Told to Be Ready for Action—Men, Arms on Chester for Vera Cruz

BY JOHN EDWARD NEVIN.  
WASHINGTON, Feb. 25.—Strong pressure on Gen. Villa to surrender William H. Benton's body was brought to bear by the Washington administration today and it is believed that President Wilson's future Mexican policy may hinge on the result. The situation is unquestionably serious. Gen. Villa's refusal to deliver Benton's corpse to the widow is causing intense indignation in England.

Secretary of State Bryan is plainly worried, although he has said nothing to that effect. He left the President's army and navy reception at midnight, going direct to the State Department where he re-read the report of Consul Letcher at Chihuahua City, saying that Villa would permit the widow to view Benton's body, but would immediately reinter it. He then sent fresh instructions to Consul Letcher in which it is understood he renewed in strong terms his demands on Villa to surrender the body immediately. The local rebel junta has been warned that the administration will fully investigate the Benton affair whether Villa approves or not.

Ugly rumors are current, and the State Department is nearly convinced, that Gustav Baugh, the German-American accused by Gen. Villa of being a federal, and John Lawrence, the Englishman who went to Juarez to search for Benton, have been executed. No clue has been found to the whereabouts of either, despite a thorough search. Army officers on the border have reported an intense anti-American feeling. Unless Villa delivers Benton's body, many of them fear his friends will cross the border and try to recover it forcibly. They are making open threats to do so. The report is current that the War Department has ordered four border cavalry posts to prepare to take the field on short notice.

Mexican-American relations are the most tense since the assassination of Madero. There is a constant interchange of messages between Secretary of State Bryan and Consuls Edwards at Juarez and Letcher at Chihuahua City and Charge d'Affaires O'Shaughnessy at Mexico City. The administration, in short, in its negotiations with the British foreign office, has accepted the obligation of determining the exact circumstances of Benton's death. Aside from Benton's case all efforts to learn the fate of the Englishmen, Lawrence and Baugh, and the German-American, Baugh, had failed. Villa denying knowledge of any of them.

### ESSENTIAL TO SEE IF BENTON WAS BEATEN TO DEATH

WASHINGTON, Feb. 25.—Secretary Bryan conferred with President Wilson at the White House early today, before either appeared at his office. Later Bryan talked to British Ambassador Spring-Rice. It was agreed that the chief essential is to determine whether Benton was beaten to death by Villa before he was shot, following the court martial. Bryan refused to give out any statement except to say that Villa's first reply to the demand to produce the body was a refusal to let anyone see it. But he later agreed to let the widow see it in the presence of American friends. It is rumored that the government may send an army surgeon to examine the corpse.

Chester Convoys Vessels  
The scout cruiser Chester left Mobile this morning conveying the transport Prairie with 850 marines, and the Monitor Tonopah with arms and ammunition for Vera Cruz. It is said the administration is seriously considering placing a guard at the American legation. The government is investigating the report that Clement Vergara, an American citizen, was hanged by federals at Neuve Laredo.

Bauch Believed Executed  
EL PASO, Feb. 25.—That Gustave Bauch, a German-American, was executed at Juarez last Friday by rebels is reported among American officers here. They refused to divulge the source of their information pending official investigation.

France Sends Second Warship  
PARIS, Feb. 25.—It has been learned authoritatively that a second French warship will be sent to Mexico.

## PRESIDENT HUERTA AT A DIPLOMATIC RECEPTION

Despite his trials and the difficulties he finds himself in, President Huerta of Mexico has time for social affairs. In fact he is enjoying himself to the limit. Every evening he is entertained or entertains. In the days Huerta was a mere general or colonel in the Mexican army he did not associate with the best society in the capital. Being part or whole Indian, the pure-

blooded Spaniards had no use for him. They rather looked down on him and his family. But since his rise to power he has proved himself the strongest man in Mexico, and now those who scorned him are glad enough to do him honor. The photograph of Huerta shown here was taken at a diplomatic function. At his left is the wife of one of the foreign ministers with whom he is conversing.

## VANDERBILT CUP RACE NEAR AT HAND

7000 People Saw Final Spins on Santa Monica Course for Tomorrow's Classic

SANTA MONICA, Feb. 25.—Every automobile racer entered in tomorrow's Vanderbilt cup race engaged in final practice today except Frank Verbeck, the Fiat driver, who had engine trouble. Seven thousand people witnessed the trials. No noteworthy time was done on account of the refusal of the drivers to risk their cars before the final day.

The course was excellent, being faster than ever since the recent rains. Two hundred men are giving the finishing touches to the track today, and it will be closed to traffic at midnight tonight. Mayor Dudley predicts an attendance of 200,000 people to line the course and fill the special stands erected by the city of Santa Monica.

Santa Monica is donning gala attire today in celebration of the races Thursday and Saturday. Upon recommendation of Mayor Dudley, blue and orange were adopted by the city council as the official Santa Monica colors, and decorations on public buildings, the grandstand, etc., will be in those hues.

### FREE-FOR-ALL RACE WITH \$50,000 PURSE FOR 1915

SANTA MONICA, Feb. 25.—A free-for-all race with a \$50,000 purse for world's fair year is the goal toward which Santa Monica aims its auto racing ambition. By recommendation of Mayor Dudley the city council went on record yesterday afternoon as opposed to any future use of the streets of Santa Monica for auto racing with the single exception of one grand free-for-all next year. Special provisions should be made, declares the mayor, to open the doors to the speed kings of all nations.

### KING GEORGE AND MAYOR TO SEE CRACK BASEBALL TEAMS

LONDON, Feb. 25.—King George announced that he will attend the baseball game tomorrow between the New York Giants and the Chicago White Sox. The Lord Mayor and other officials will attend. Americans entertained the players at luncheon today.

Manager McGraw of the Giants is threatened with pneumonia and is unable to leave his room.

### BORAH SAYS REPUBLICANS AND PROGRESSIVES TO JOIN

COLUMBUS, O., Feb. 25.—Speaking at a Republican rally, Senator Borah of Idaho predicted that Progressives and Republicans will close the gap within a few months and the Republicans with added power will become formidable opponents to the party now in power.

### REBELS ATTACK MAZATLAN

MEXICO CITY, Feb. 25.—It is learned that a rebel attack on Mazatlan began this afternoon. Huerta is censoring all news, prohibiting details from becoming public.

## BECKER MAY NOT BE RETRIED IS BELIEF

Circuit Court of Appeals Grants New Trial—Gunmen Are Denied the Chance

NEW YORK, Feb. 25.—Police Lieutenant Charles Becker, under sentence of death at Sing Sing for the murder of Herman Rosenthal, was granted a new trial yesterday by the Circuit Court of Appeals. The four gun men who were found guilty of actually killing Rosenthal at Becker's orders when Rosenthal, who was a gambler, refused to pay tribute to the police, were refused new trials. The lower court's decision in the Becker case was reversed on an error of Justice Goff, who presided at the first trial.

The decision means that the four gun men will be electrocuted and that the way will be open again for the resumption of warfare between the police, the gun men and gamblers. An order transferring Becker from Sing Sing to the Tombs was issued today. It is believed Becker will not be retried.

## FLOUR MILLS OF WEST WIN OUT IN SUPREME COURT

WASHINGTON, Feb. 25.—Western flour mills have won a victory in the supreme court, which has held that the bleaching of flour by the Alcop process is not an adulteration, and therefore not prohibited by the pure food law.

Western flour millers, of Kansas, Nebraska and Missouri, joined in fighting the government's suit to confiscate, for alleged adulteration through the electrical bleaching process, flour made by the Lexington Mill & Elevator Company of Kansas City. In 1910 the flour was seized by the government. A jury in the Missouri federal district court, upon strict instructions from the trial judge, held that the bleaching caused adulteration and rendered a verdict in favor of the government's confiscation of the flour.

On appeal the jury's verdict was overturned by the United States Circuit court, which declared that some adulteration—a very slight amount—resulted from the bleaching by the "Alcop" process, but not enough to be deleterious to the consumer's health. The appellate court held that some material harm must be shown to result. From this decree the government appealed to the supreme court.

Millinery work rooms open today. Miss Emeline Kalde will be glad to welcome her many friends at Gilbert's. Miss Kalde has just returned from the fashion centers and has many new ideas for you in spring styles.

## AUTOMOBILE TAX UPHELD BY COURTS

Supreme Court Ruling Declares Law to Be Absolutely Constitutional

TEST CASES ATTACKED LAW FROM MANY POINTS

Payment of Horse Power Tax by Owners and Drivers Due Right Now

SAN FRANCISCO, Feb. 25.—Owners of automobiles in California—more than 100,000 of them—will have to pay to the state a horse-power tax on their cars, ranging from \$5 to \$30, and drivers of machines for hire will have to pay a license fee of \$2. They will have to start in right away, too, for the law to that effect, enacted at the last legislature and effective after January 1 of this year, will be enforced forthwith, the supreme court of the state having decided yesterday that the law is constitutional in all particulars.

Test cases were brought by the automobile men of the state, in the belief and hope that they could tear holes in the new law. They attacked it on a number of different grounds. On each, however, the supreme court ruled that the law was soundly constructed.

The automobile men contended the law was unconstitutional because it imposed a tax on the inhabitants and properties of the counties for county purposes. The attorney general replied that it was a police measure, and further, that the road taxes provided for under the act were authorized by the constitution.

The tests were brought by Alfred J. Schuler of Los Angeles, who did not display his license number front and back; Perry E. Towne and Douglas Mitchell of San Francisco, who hadn't paid their horse power tax, and Charles Stork, a professional, unlicensed chauffeur.

## MATHEWSON MAY NAME OWN FIGURES

Offered Management of the Brooklyn Federals—Has Made No Decision

LOS ANGELES, Feb. 25.—Christy Mathewson today admitted the receipt of an offer to become manager of the Brooklyn Federals at his own figures, but said he was undecided whether or not to entertain it. He leaves tonight for Marlin Springs, Texas, where the New York Giants will train. His friends believe he will not negotiate with the Federals.

### BLANDING KIDNAPPED TO PREVENT JOINING FEDERALS

CLEVELAND, Feb. 25.—It developed today that Pitcher Fred Blanding of the Cleveland Americans, who signed a Federal League contract, was kidnapped by a teammate and carried to the Hot Springs training camp. The players there declared they will prevent him joining the Federals unless enjoined.

### SNOW IN NEW ORLEANS

NEW ORLEANS, Feb. 25.—Snow fell here today for the first time in ten years.

New Method Gas Ranges save 25 per cent on your gas bills. We have them in all wanted sizes. Horton-Spurgeon Furniture Co.

## WALNUT GROWERS NOT LIABLE TO PAY INTERNAL REVENUE

A. C. Tiede said today that the Santa Ana Valley Walnut Growers' Association will not be held liable for payment of an income tax. The association has had the matter in the hands of a Los Angeles attorney and he has given his opinion to this effect. Tiede is secretary of the association. It was feared that an income tax would have to be paid as the gross receipts of the association are high. The fact that the association makes no profit was evidently decided the matter.

## SUPREME COURT UPHOLDS OHIO LABOR LAW

Ten-Hour Day for Women Over 18 Years of Age Declared Constitutional

SECOND LAW BARS HIRING GIRLS UNDER 19 YEARS

Ohio Courts Upheld Law as Part of States' "Police Power" Over Health and Morals

WASHINGTON, Feb. 25.—The supreme court yesterday declared the Ohio female labor law to be constitutional.

The Ohio "female labor" law provides that girls and women over 18 years of age shall be prohibited from working in any factory, telegraph or telephone office, restaurant or cafe, millinery shop or similar establishment more than 10 hours a day or, in all, 54 hours a week. Another law bars employers from hiring girls under the age of 18 years. The "female labor" law, however, does not apply to canneries. Each violation of the law is made punishable by fines of from \$25 to \$200.

Anna Hawley, a Columbus, O., milliner, brought the test case decided yesterday. She was arrested on a charge of having employed a milliner 55 hours in one week. She sued out a writ of habeas corpus, alleging the law was void as an impairment of the right of free contract. The law was sustained by the Ohio courts as a reasonable exercise of the state's "police power" in the interest of public health and morals.

## AUNT OF M'KINLEY DIES IN LOG HUT

Poor But Happy, 83-Year-Old Lady Refuses Medical Aid in Last Illness

STAR CITY, Ind., Feb. 25.—In poverty, but happy in her little three-room novel home, Mrs. Ellen McKinley Winters, 83 years old, aunt of the late President William McKinley, died yesterday from a series of complications caused by old age. Up until the last she refused medical aid, saying:

"I have lived this long and had eleven children without the assistance of a doctor, and I don't want one fussing about me at this time of life. I am not sick, but am just a little bit tired."

The hut in which Mrs. Winters died is located four miles north of Medaryville, and is a typical Hoosier pioneer log cabin in a clearing of the woods. She has lived many years with her bachelor sons, George and Ward Winters, and has served as housekeeper. The quaint furniture includes an old organ, violin, guitar and banjo, which were a source of entertainment during the long winter evenings.

The record in the family Bible shows that she was the youngest child of Benjamin McKinley and was born at Baggs Hill, O., July 5, 1830. She was a sister of William McKinley, Sr., father of the late President.

### FRENCH DEPUTIES PASS \$400,000 FOR 1915 PANAMA FAIR

PARIS, Feb. 25.—An appropriation of \$400,000 for the participation of France in the Panama-Pacific Exposition to be held in San Francisco in 1915, passed the chamber of deputies yesterday. The measure does not become effective, however, until it has passed the senate.

### ROBBERS FAIL TO BLOW IOWA STATE TREASURY SAFE

DES MOINES, Feb. 25.—Four masked men overpowered two guards in the state treasurer's office. They worked two hours in an effort to open a safe containing \$7500 but failed.

### U. S. WHITE SLAVERY LAW AGAIN UPHELD

WASHINGTON, Feb. 25.—The constitutionality of the federal white slave law was again upheld yesterday by the supreme court in the Wilson case from Chicago. The point whether the law is limited to commercial vice was not involved.

Take a stenotypy course at the Orange County Business College.

## Gov. Johnson is Endorsed in Far Off Sunny Italy

COSENZA, Italy, Feb. 25.—One thousand Italian-Americans celebrated Washington's birthday yesterday. The meeting was held in the city hall. The attendees at the celebration approved of Col. Roosevelt for the presidential candidacy in 1916. Oscar Strauss, Gifford Pinchot, Frank A. Munsey, Albert J. Beveridge and Gov. Hiram Johnson of California were endorsed.

## Bulletins of News

Hot from the wire up to 3:30 p. m.

### THE WEATHER

Fair tonight and Thursday; light northwest winds.

### Limestone Shippers Oppose Freight Rate Advance

WASHINGTON, Feb. 25.—Limestone shippers had their inning today before the Interstate Commerce Commission in opposition to requested increases in eastern railroad freight rates.

### Italy to Exhibit at Panama Fair Without Conditions

ROME, Italy, Feb. 25.—Italy, it was officially announced today, will participate in the Panama-Pacific exposition at San Francisco next year without placing any conditions on her exhibit.

### Visalia Likely To Stay "Dry" Town

VISALIA, Feb. 25.—Visalia probably will stay dry. Out of the first 400 votes counted, the drys have 140 lead.

### World's Record Broken by Aviator

CHARTRES, France, Feb. 5.—A world's record was made when an aviator carried four passengers aloft 10,395 feet today.

### ALLEGED WHITE SLAVER SEEKING \$10,000 BOND

SACRAMENTO, Feb. 25.—A message received here this afternoon stated that J. Parker Whitney, the young millionaire, former Harvard football star and society man, who is accused of violation of the Mann white slave act by taking Genevieve Hagan of New York between states for immoral purposes, is trying to find bondsmen. He is in the custody of Deputy Federal Marshal Burnham.

### BODY OF LUCY KILFOIL WILL BE EXHUMED

LOS ANGELES, Feb. 25.—The body of Lucy Kilfoil, who died recently, presumably of the effects of arsenic in her cocoa, will be exhumed tonight for examination. Her brother Philip remains in jail charged with a statutory offense against Lillian Palmer, aged 14. Unless evidence connecting him with the possible poisoning of his sister develops quickly, the potential case against him will collapse, the officials say. A squad of detectives, despite their efforts, are unable to find trace of the purchase of poison.

## RICH YACHT OWNERS MUST PAY TAXES

Supreme Court Rules Government Has Right to Assess Pleasure Craft

WASHINGTON, Feb. 25.—The supreme court has decided in favor of the government in the Texas Yacht case, upholding the customs officials in assessing stiff duties on pleasure yachts.

Those contesting the "yacht tax" were: H. Clay Pierce, the oil magnate; C. K. G. Billings, millionaire horseman; Roy A. Rainey, James Gordon Bennett and Harriet Goelet. They utterly denied the right of the government to tax their yachts. The federal courts of New York decided against them and they appealed to the supreme court. That the tax did not apply to yachts used and kept in foreign waters or to "expatriates" was contended. The new tariff law clears up the tax ambiguity of the old law.

### RAILROADS WOULD HOLD LINES UNDER CANAL ACT

WASHINGTON, Feb. 25.—Seven railroads have petitioned the Interstate Commerce Commission for permission to retain their water lines under the Panama canal act. The list included the Southern Pacific, operating Pacific mail ships.

### TABLED RESOLUTION

WASHINGTON, Feb. 25.—By vote of 32 to 25, the Senate today tabled the Norris resolution asking the Department of Justice to inform the Senate of the exact negotiations between the New York, New Haven and Hartford railroad regarding reorganization.

## ONLY ONE WAY TO ROAD RACES

Local Men Investigate Road Conditions—Find Brea Only Route

ROADS TO COUNTY POINTS NOT BAD

Impossible to Get Further North Than Norwalk on Whittier Boulevard

Messrs. J. W. Tubbs and Hiram Connel, on behalf of the Santa Ana Automobile Club, went on a tour of investigation this morning in order to ascertain what roads will be open for those going to the races at Santa Monica tomorrow and Saturday. They found that the only way that machines can get to the road races from Santa Ana is by way of Brea Canyon road. Following is the route: Santa Ana to and through Brea Canyon to Pomona; thence by the foothill boulevard through Lordsburg and Azusa, come in at Lamanda Park at the end of Colorado street, Pasadena. The distance going this way is sixty-six miles from Santa Ana. Mr. Tubbs said that it will be a week or more before bridges are repaired so that other roads will be practicable to Santa Monica.

In regard to road conditions in different parts of the county, Mr. Tubbs said that it is possible to get to Long Beach by way of Naples. Roads are good to Whittier but it is not possible to get further north on the way to Los Angeles, as the bridge is out at Norwalk. The road to Balboa by way of Fairview is in very good condition. Talbert can be reached easily as can also Capistrano although this latter road is somewhat rough. The road beyond Capistrano is impassable. West of Anaheim and Garden Grove there are several miles of road torn up at present owing to highway work which is in progress.

### Parking Space at Races

Chairman Shettler yesterday afternoon issued a statement to clear up an erroneous impression regarding the parking space at Santa Monica. He said: "There seems to be an impression that owners cannot take their cars inside the course, unless they have parking spaces. Such is not the case. In fact, the space reserved by the committee is less than one-fiftieth the distance lining the course. "The choicest spots, such as the turns and knolls, were set aside by the committee for accommodation largely. We believed that there would be many persons who would wish to have their space reserved so they would not have to get at the course at 5 o'clock in the morning or participate in a wild rush for choice positions. Therefore we set aside certain stretches which we have sold."

"Now, it is not necessary for one to have a parking place to take a machine inside the course. Fifty cents will take the machine in, as far as that is concerned. But the owner will have to hustle his own parking space. Or the driver may park his car on some side street and walk to a place where he can watch the race. "There is nothing compulsory regarding the parking space. It is simply a reservation and advantage for those who wish to pay the extra money for it. Thousands of machines can be taken care of in other places than the parking space."

## RANCH HOUSE BURNED TODAY

Dwelling on Old Ben Nimmo Lease Was Destroyed This Morning

This morning fire destroyed the dwelling on the Wilson Bros. lease on the San Joaquin ranch below Myford. The house was an old store building moved onto the ranch years ago as a dwelling. It was occupied for years by Ben Nimmo. The lease is now farmed for beans, sugar beets and hay by Wilson Bros. The house was not worth over \$300 or \$400. How much the contents were worth has not been reported. The fire occurred about 11 o'clock this morning. It is thought that a distillate burner started the trouble.

Remember the Christian Science lecture next Thursday evening at the Opera House.

# CUSTER STREET BARN BURNED DOWN

Forty Tons of Hay Lost—Origin of Last Night's Blaze is Unknown

This morning fire destroyed a two-story barn and forty tons of hay at 1036 Custer street. The property belonged to Mr. and Mrs. C. A. Forbes of El Toro. The loss was partially covered by insurance.

The barn stood at the rear end of the lot, which has no house upon it. Directly south, at 1034 Custer street, is the home of W. J. Truax. A girl living there was the first to notice the flames. She awakened her father, who turned in an alarm by telephone at 2:45 o'clock.

The barn was already enveloped in flames, and the firemen could not save it. The firemen were at work for three hours extinguishing the flames in the baled hay.

It is not known how the fire started. It is believed that a hobo asleep in the barn accidentally set it afire. One of the Truax boys returning home at 11 o'clock last night, passed through the yard, but noticed nothing wrong.

The barn was a good two-story building, worth several hundred dollars. Forbes was at El Toro.

When in town recently Forbes stated to Truax that as soon as he sold the hay he was going to tear the barn down or move it across the street to another lot, and that he would then build a residence on the lot where the barn stood.

# SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-time Recipe that Anybody Can Apply

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.—Advertisement.

PICKEL AND WATSON PIANO SCENE IN "HOW DYE DO"

## AMUSEMENTS

**Grand Opera House**  
Undoubtedly what will prove one of the greatest events of the present theatrical season among local theater-goers will be the forthcoming visit of "How Dye Do" at the Grand Opera House on next Friday evening.

This latest success of the Anderson Gaiety Company comes direct to this theater after not only a long run at the Gaiety Theater in San Francisco but likewise at the Moresco Theater in Los Angeles. No expense has been spared in equipping this latest venture of Broncho Billy's with a cast of rare excellence and elaborate scenic embellishments.

Prominent in the roster of players will be found Pickel and Watson, one of the best known teams of grotesque comedians on the American stage; Walter Catlett, he of the legs which simply won't behave; Ruby Norton and Sammy Lee, terpsichorean artists of the premier class; Arthur Clough, formerly leading baritone in the New York company of "The Rose Maid," Bert Howard and Edna Laurance, Whitford Bryson, Reece Gardner and Edward Beck. A typical Anderson Gaiety Beauty chorus of fifty will be on hand to lend not only voice but likewise beauty to the many ensemble numbers.

## SEE THE NASHVILLE STUDENTS AT CLUNE'S

The lovers of the good old-time melodies should certainly attend the performance of the Nashville students at Clune's Theater all this week. Culligan & Hockwald's minstrels have always been a company especially selected by the management for their singing qualities. It has long been conceded that no one can get the harmony and music of those songs like the real darkey. There is also added to the entertainment plenty of good, clean comedy, and some of the latest and most popular ballads of the present time. The show is especially for ladies and children. There is nothing so entertaining as a good singing show, and the management of the colored minstrels certainly had that in mind when the present company was selected. From the time the curtain goes up there is always something doing, either in singing their old southern ballads, for which the negro is noted, or some of the latest songs of the day with the entire company singing the chorus. If you can afford only one show this season, don't miss this one, the best of all colored shows. The program of pictures is also exceptionally good this week.

## Feel Miserable?

Out of sorts, depressed, pain in the back—Electric Bitters renews your health and strength. A guaranteed Liver and Kidney remedy. Money back if not satisfied. It completely cured Robert Madison, of West Burlington, Iowa, who suffered from violent liver trouble for eight months. After four doctors gave him up he took Electric Bitters and is now a well man. Get a bottle today. It will do the same for you. Keep in the house for all liver and kidney complaints. Perfectly safe and dependable. Its results will surprise you. 50c and \$1.00. H. E. Bucklen & Co. Philadelphia or St. Louis.—Advertisement.

Hoosier Kitchen Cabinets convert your old-fashioned kitchen into a convenient modern one and save many miles of steps. Sold exclusively by the Horton-Spurgeon Furniture Co.

## "Faultless" Houdans

This strain has been egg-bred from trapnest records since April, 1890. I have bred them 21 years for great layers and 12 years for large size chalk-white eggs; these fowls are extremely hardy, have neither comb nor wattle to freeze, and are the best of all winter layers in open front coops. Faultless strain Houdans have won every blue ribbon at New York, Boston, Chicago and Philadelphia. Shows for past six years; eggs and stock sold on honor; send 10c for the largest illustrated poultry catalogue ever issued; it tells you how to breed these fowls, which average 250 eggs a year apiece; it tells you how to net \$3,000 a year from 100 hens. E. F. MacAVOY, secretary Houdan Club, Cambridge, N. Y.

## Federal Hospitals For Consumptives

At the instance of the Southwestern Conference on Tuberculosis and the Texas Public Health Association a bill has been introduced in the United States Senate by Senator John F. Shafroth of Colorado, and in the House of Representatives by Hon. Oscar Callaway of Comanche, Texas, providing for the establishment of federal hospitals for the care of indigent consumptives.

These hospitals are designed to care for the people from Northern and Eastern states who come to the West and Southwest seeking health or a longer lease of life. Many of these people become public charges in a short time after their arrival and go from city to city seeking work or a free hospital.

It is believed that they spread their disease as they move from place to place, and are responsible for an increase of tuberculosis in the native-born population.

The Shafroth-Callaway bill contemplates the establishment and maintenance of hospitals under the control of the United States Public Health Service under rules and regulations designed to prevent an increase of the number of patients coming into the Southwestern states. The need for such hospitals has been apparent for years. The states and cities of the Southwest have been unable to care for these people, and the communities from which they come have done nothing for them. There is no agency other than the federal government to provide for them.

The bill contemplates the expenditure of \$250,000 for the repair and reconstruction of existing buildings on military or other reservations in the Southwest and \$500,000 for maintenance of patients during the first year.

## NOSE AND HEAD STOPPED UP FROM COLD OR CATARRH, OPEN AT ONCE

My Cleansing, Healing Balm Instantly Clears Nose, Head and Throat—Stops Nasty Catarrhal Discharges. Dull Headache Goes.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely, dullness and headache disappear. By morning the catarrh, cold-in-head, or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant

balm dissolves by the heat of the nostrils; penetrates and breaks the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foal naucous dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Advertisement.

## DIVORCE IS GRANTED IN LOS ANGELES

"I don't love him," was the only explanation Mrs. May D. Reeves gave Judge Wellborn yesterday for refusing to live with her husband, Walter M. Reeves. Under the circumstances there was nothing for the court to do but to grant the decree on the ground of desertion. The testimony of Reeves showed that they were married January 1, 1907, and that she left him August 25, 1910.

The above is from the Los Angeles Times. Mrs. Reeves was formerly Miss May Dismore of Santa Ana.

## ESTRAY NOTICE

Santa Ana, Calif., Feb. 15, 1914.  
This is to certify that the following described estray: One mare, light bay, about 15 hands high, old, has eyes, hereafter mentioned, and a white blaze down her forehead. Said estray was taken up on the Irvine alfalfa ranch, and is now confined at the Irvine Alfalfa Ranch, about four miles southeast of Santa Ana, Calif. Probable value of said estray is \$100.00.  
C. H. WHITNEY.

## NOTICE OF SALE OF REAL ESTATE

In the Superior Court of the State of California, in and for the County of Los Angeles.  
In the Matter of the Estate of Alonzo J. Leatherman, deceased.  
Notice is hereby given by the undersigned, Administratrix of the estate of Alonzo J. Leatherman, deceased, that under the authority of an order made and granted on the 25th day of November, A. D. 1913, in the matter of the estate of Alonzo J. Leatherman, deceased, the undersigned Administratrix will sell at private sale to the highest bidder, upon the terms and conditions hereafter mentioned, and subject to the confirmation of said Superior Court, on or after Wednesday, the 4th day of March, A. D. 1914, all of the right, title and interest that said estate has by operation of law, or otherwise, acquired, other than or in addition to that of said deceased at the time of his death, of, in and to all that certain lot, piece or parcel of land situated, lying and being in the Rancho Las Bolas, County of Orange, State of California, and bounded and particularly described as follows, to-wit:  
The East One-half (1/2) of the South One-half (1/2) of the Northeast Quarter (1/4) of the Northwest Quarter (1/4) of Section Thirty-one (31), Township Four (4) South, Range Ten (10) West, S. B. B. 12, containing ten (10) acres, more or less, and ditches a strip of land 20 feet wide, along, adjoining and each side of the Township and Section lines, and a strip of land 15 feet wide, along, adjoining and each side of the Quarter Section lines; also reserving the use and control of cienegas and natural streams of water, if any, naturally upon, flowing across, in or by said described tract, and reserv-

# Dress Goods Sale

## CALL MEETING TO TALK OVER RIVER DIKING

Recent Storm Starts Another  
Movement Toward Protec-  
tion District

Anaheim Herald: The Board of Trade last night decided to call a mass meeting at Anaheim in the near future to discuss the proposition of forming a river protection district.

\$1.75 Comforts go at \$1.29  
\$2.50 Comforts go at \$1.95

**Sebastian's**  
306 E. 4th St.

The definite date was not set, but was left to the committee which has had charge of river protection. The people of all sections of the northern part of the county which have been affected by the recent storms will be asked to attend this meeting. These sections will include Orange, Olive, Fullerton, Placentia, Garden Grove, Stanton and Buena Park. Anyone who is interested in the matter will be invited.

The main purpose of holding the meeting will be to learn the sentiment of the people who reside in, or have property in the affected districts. It is thought that now is the proper time to take up the matter of protection, if ever. It is reported that the sentiment is strong in favor of forming such a district.

At the time of the high waters about four years ago, when considerable damage was done, there was a great deal of talk about forming a district, but before it came to a show down it was learned that the sentiment was not strong enough to vote in favor of forming such a district.

About that time the Newbert Protection District was formed to protect the lowlands from the overflow water. This district was bonded for \$180,000. The money was used in digging a channel 500 feet wide, extending from a point about three quarters of a mile below the Chapman street bridge to Newport Bay. This channel has given excellent satisfaction in all cases, except just at the beginning of the channel, which was not wide enough to catch all of the water.

At the time that the Newbert Protection District was formed Engineer H. C. Kellogg, who had the work in charge, said that the district should begin at Yorba, the mouth of the Santa Ana canyon, where the river begins to spread out. This, however, was not done.

The purpose of the mass meeting will be to discuss the feasibility of diking or otherwise protecting the adjacent land from the flood damages. Knowledge of the sentiment of these districts is also desired.

The cost of protecting the northern district will not be nearly so large as it was in the southern and lower part. There it was necessary to create a channel, while here there is already a well defined channel. All that will be necessary is to have a system of diking on the sides of the river and the center cleaned of the rubbish and sand dunes which have formed in the past few years.

Besides the cost of the protection being less, the cost will fall upon property which is much more valuable, and more able to stand the tax levy. With the protection district in, as it should be, the value of the land will also rise.

## UNION MEETING BY ORANGE CHURCHES

(By Staff Correspondent.)  
ORANGE, Feb. 24.—Rev. G. L. Tufts of Oakland, secretary of the West Day League of this state, delivered a most interesting sermon at the M. E. church Sunday evening at a union meeting of the local churches. He made a fine plea for the four million people of our state who are obliged to work on Sunday.

Mrs. W. H. Bolles passed away yesterday afternoon at her home on North Olive street, after an illness of several weeks. Her death will be mourned by a large number of friends as she was an active member in the M. E. church and in the Woman's Relief Corps. She leaves a husband and one son, E. J. Bolles of Santa Barbara. Funeral arrangements have not been announced.

Five acres of the J. D. Thomas place at El Modena has been sold recently.

Mr. Stanfield, who has been staying at the home of his uncle, Clate Stanfield, has moved to El Modena. Charles Coones is here from Tucson, Ariz., visiting his brother, P. M. Coones. Mr. Coones is railroad-riding on the Southern Pacific between Tucson and El Paso.

S. A. Marsden, manager of the Electric Theater, was home from Los Angeles for a short visit yesterday.

Mrs. H. L. Davis of East Palmyra avenue, who has been very ill for some time, is reported to be very low.

## URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your  
Back Hurts or Bladder  
Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the back or side, sharp pains in the back or side, headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Advertisement.

# OUR FIRST ANNIVERSARY SALE

"The Smart Shop's" First Twelve Months Has Proved  
a Charmed Circle of Success

It has been a wonderful twelve months for us, bringing to us solid, substantial business success, in a way that has given us fresh enthusiasm.

It has also brought us friends by the hundreds, who have frankly expressed themselves delighted with the high-class merchandise purchased.

It has given us inspiration for many new plans for extending and perfecting our business—of providing the smartest apparel at the most moderate prices.

WE'VE DONE SOME GREAT  
PLANNING AND BUYING FOR  
THIS SALE! YOU'LL SAY SO,  
TOO!

When you see how absolutely new and fresh and right up-to-the-minute every garment is! It took a good deal of clever maneuvering to get hold of all the really extraordinary offerings featured in this sale. But—well, we succeeded in securing values that will give you a chance to show your husband a "real bargain" next time he scoffs at the idea!

The Most Important Offerings in  
Our First Anniversary Sale  
Charming Novelties  
IN SPRING SUITS  
IN SPRING GOWNS  
IN SPRING COATS

Windermere, Windermere R. \$1.50

ST. LOUIS, Feb. 23.—(Delayed wire of Monday.) Colder, zero predicted. Eight cars sold.

LOS ANGELES PRODUCE MARKET

Asparagus is arriving in large quantities for this season of the year, and the price declined yesterday to 35 cents a pound, the lowest price of the season. There was no change in the quotation in tomatoes, and the second carload of the season was received from Mexico. It came unheralded and unexpected except by the man handling the consignment. The quotation was \$2.25 to \$2.75 a crate. Other vegetables were not very plentiful, and the demand was only fair. The rains did a little damage to the vegetable fields, particularly where they were located in lowlands.

By the way of arrivals there were few for the day, and at that they are the total for Saturday, Sunday and Monday. Prices were weak instead of firm, despite this fact. Causes for the easy feeling arise in the expectation of a great volume of delayed stock, which would mean sudden declines if the market were pushed too high. In eggs the market actually dropped, going to 21 cents. They are reaching a lower level than for a number of years at an earlier time in the year. In San Francisco they were declined to 21 1/2 cents. Receipts of local stock were but 346 cases.

Horrible Blisters of Eczema  
Quickly cured by Dr. Hobson's Eczema Ointment. C. P. Caldwell, of New Orleans, La., states: "My doctor advised me to try 'Dr. Hobson's Eczema Ointment.' I used three boxes of Ointment and three cakes of Dr. Hobson's Derma Zema Soap. Today I have not a spot anywhere on my body and can say I am cured." It will do the same for you. Its soothing, healing, antiseptic action will rid you of all skin humors, blackheads, pimples, Eczema blotches, red unsightly sores, and leaves your skin clean and healthy. Get a box today. Guaranteed. All druggists, 50c, or by mail. Pfeiffer Chemical Co., Philadelphia & St. Louis.—Advertisement.

## FEDERAL CONTROL OF WATERS?

In the year 1901, a thorough and careful investigation was made under the direction of Elwood Mead, by the U. S. Department of Agriculture, of the situation in California relative to the use of water for irrigation purposes.

In his letter of direction to his assistants, Mr. Mead said, among other things:

"The impression seems to prevail in the minds of some of those interested that this investigation is destined to result in a national law for the establishment of water rights which would overturn or unsettle all existing ones. \* \* \* Rights to water are based on state laws or state customs. There is no reason to believe that they will be overturned except with the sanction of those most concerned, and when there is a desire for reform or change, no legislative agency can respond so quickly and effectively as that of the state."

It will be conceded by everyone that the persons most vitally interested in legislation touching the use of water are the whole people of the state of California; not the power and irrigation companies.

The legislature of 1913 passed an act regulating the use of water in the state of California, expressing the wishes and will of a majority of the citizens of this state. But the speculative power and irrigation companies, by referendum petition, have sought to defeat the will of the people and have suspended the operation of this act.

If the vote at the next general election, upon this referendum petition, should nullify the act of the legislature, it will be by reason of the indifference of the voters of this state to the needs of a comprehensive and effective system of regulation of the use of water.

The desire of a great many men in public life, as expressed at the recent National Conservation Congress, is to turn over to the federal government the control of all the waters of the states. It is believed, however, that those states which have a modern system of control of their waters will be exempted from federal control.

It plainly follows, therefore, that the very agencies seeking to defeat state legislation on this subject will be the cause of the handing over to the federal government the control of the waters of the state. They will be in a worse condition then, from their own point of view, than if they allowed the present legislation to become operative.

## Editorial Edibles

Are Tom Taggart of Indiana, and Roger Sullivan of Illinois, running for the senate as "original Wilson men?"

Cleveland, Ohio, is trying to raise enough money to buy three elephants. Most cities already have one or more on their hands.

Every man is his own master or else a slave to others. Be sure the fire is out before jumping from the frying pan.

Few young men rise in the world until after they settle down.

President Wilson does not wear that formidable chin merely for the sake of looks.

The Oldest and Largest Manufacturers of Shoe Polishes in the World.

## THE CITRUS FRUIT INDUSTRY

Department of Service to Citrus Fruit Growers, Conducted Especially for the Register.

Copyrighted by Reginald Brinsmead.

## NEW FRUITS FROM BRAZIL

The commission consisting of Dr. A. D. Shamel of Riverside, P. H. Dorsett and O. P. Popano, sent to Brazil last fall by the federal bureau of plant industry, Washington, D. C., in search of new and promising varieties of navel orange and other fruits, has succeeded in securing several promising additions to our existing list of commercial crops. Recently returned to Washington, D. C., the party has brought with it summer and winter fruiting navel oranges, an orange-lime, and new fruits among which are to be numbered the Pitanga and Jaboticaba.

Whether these new varieties and new fruits will prove adapted to successful commercial cultivation in California only trial can tell. The importance, however, of a summer bearing or cropping navel orange would prove of immense value in our citrus orchards. This was the aim of the late A. C. Thomson of Duarte, when he propagated the Thomson Improved Navel and the Navelencia, both of which varieties unfortunately failed to fill the bill in this respect, although both are of great value as additions to existing varieties of oranges.

These navel orange importations just brought in from Brazil are most promising for cultivation under California conditions, from the fact that the original Washington Navel, upon which is built the present California navel orange industry, was imported from Bahia, Brazil, to find in California conditions congenial to its

best growth. So far as the new fruits—the Jaboticaba and Pitanga and the orange-lime—are concerned, only experience and time can prove their ultimate worth.

The orange lime is described as being as large as an apple, containing as much juice as a good sized orange, the juice tasting like the ordinary lime, and capable of being successfully bottled.

The Jaboticaba is described as looking like a large purple plum, growing close to the branches with no stem, on trees which frequently reach the great height of 100 feet.

The Pitanga is said to look and taste much like a big cherry, with an added suggestion of red pepper. Dr. Shamel is quoted as saying that it makes delicious ice cream. It is grown in hedge form, and has holly-like leaves, but without the spines. The leaves are highly aromatic and are used in Brazil for strewn over the floors of the living rooms.

The results of the trials of these new fruits will be watched and followed by the California citrus fruit grower with a great deal of interest. For such as prove well adapted for cultivation in this state, our citrus lands offer ideal conditions for their growth.

And so the list of our fruit crops is continually being increased, until California in the future will become the garden spot of the world, noted far and wide for the wonderful diversity of its products and plant life.

J. B. Shaver to Nell Shaver—Lots 3

## PARTY LEADERS GIVE FACTS AS TO PROGRESSIVE WORK IN STATE

## GREAT ADVANCES IN LEGISLATION

What the present state administration has accomplished, as shown in the speech of Governor Johnson:

Amplified the child labor laws of the state until today practically there is no child labor in California.

Trains that formerly had insufficient employees and endangered life and property, must carry full crews in accordance with the law.

Medical appliances for emergencies in factories have been required.

Hours of labor of trainmen have been limited.

Payment of wages of those engaged in seasonal occupations is rendered secured, and debts contracted for liquor and in gambling are eliminated.

Protection for workmen engaged in construction is guaranteed.

Women required to toil are limited in their hours of employment to eight.

A minimum wage commission has been established for the purpose of inquiring into whether or not women whom dire necessity has driven to work receive a living wage, and the state has undertaken, after due inquiry and investigation, to provide this living wage.

From the prisons have been removed every taint of possible cruelty.

In these prisons have been created industrial pursuits that may make the convicts of the state, when they have expiated their crimes, again fit for citizenship.

A wise progressivism, in its endeavor to prevent the congestion of population and the evils that come from unrestricted and unregulated immigration, has established the immigration and housing commission, with ample powers for the protection of the immigrant.

The schools of the state have been rendered free in fact, and free text books are now furnished to our pupils.

A blue sky law, for the protection of the unwary from exploitation by the dishonest promoter, was passed, and the story of its suspension by referendum is familiar to all.

A separate training school for delinquent girls, with a board of women managers, has been established in the hope that the reclamation of those girls may now find its realization.

The crowning achievement of progressivism in its program of social and industrial justice is the workmen's compensation and safety act.

Against this law, the attacks of our opponents are mainly directed, and this law in many parts of the state has been made the issue in this campaign. Gladly do I accept this game of battle, and I am willing to stand or fall upon legislation of this character.

## GREAT SAVING OF MONEY FOR PEOPLE

What the railroad commission has done, as outlined in John M. Eshleman's speech:

San Joaquin Valley rate case—Fixed 300,000 rates saving people of that section \$750,000 a year.

Los Angeles-San Pedro harbor rate survey—Saves \$500,000 a year. This and all other savings being figured on traffic annually moved.

Imperial Valley-Los Angeles Chamber of Commerce—New rates to save to these two sections \$150,000 a year.

Demurrage rate—Cut from \$6 to \$3 a day, resulting in saving \$80,000 a year.

Rates out of Bakersfield—Found railroads were earning more than 60 per cent a year on the actual values of railroads running out of Bakersfield. Rate saving \$50,000 a year.

Owens river valley rate case—Found the freight rate was three times the actual value of some freight hauled and in all cases in excess of the real value of commodity. Rates cut more than half but railroad made no effort to take matter into court.

Los Angeles-San Joaquin rates—Rates cut \$280,000 a year on produce interchanged between two sections.

San Joaquin rates south—Rate saving amounts to \$250,000 a year.

Express rates in state—Cut amounts to \$750,000 a year, showing why it has been to the interests of the corporation to go into politics.

Wells Fargo dividend—Company declared a dividend of 200 per cent in one year and at least 10 per cent in all other years. Now holds enough securities to pay off much more than every dollar ever invested, all made out of earnings.

Sierra road case—Road built from its earnings entirely by group of lumbermen who gave themselves preferential rate half what was charged to other shippers.

Electric rate—Found rate, save in Pasadena, where municipal plant existed, averaged 10 cents a kilowatt hour. Cut rate to 7 cents, saving to the people \$750,000 a year.

Gas rate—Fixed wholesale gas rate for Los Angeles but people there have not yet received advantage because council has not yet acted.

Telephone rate—Ordered cut of one-half in all long distance telephone rates, cut going into effect March 31, next. Saving \$520,000 a year.

## TEN DAYS' MISSION IS TO CLOSE THIS EVENING

It is with great regret that the members of St. Joseph's parish will see the close of the ten days' mission, which has been conducted by the Franciscan fathers, the closing services to be held this evening beginning at 7:30 o'clock.

The brown-frocked priests have endeared themselves to the hearts of the people, not only to Catholics but to many non-Catholics, who have gone to the various services to learn more of the truths which Mother Church teaches. Father Humilis will return later to give a Spanish mission, as he speaks that beautiful language fluently and has already made many friends with the Mexicans of the congregation.

Today being Ash Wednesday, the beginning of Lent, holy ashes were distributed and three masses celebrated, one at six, another at eight and one at nine o'clock. The subject spoken was "Lent and How to Keep It." A good beginning has been made by those who made the mission and the good work should be kept up. Catholics should abstain from all amusements and attend the different devotions.

Last night's sermon was on the Catholic church and what her claims are for being the one true church. The church claims that her founder was Jesus Christ Himself, who said to Peter, the first Pope: "Thou art Peter and upon this rock I shall build my church and the gates of hell shall not prevail against it." And this indeed has proved true for in spite of all sorts of terrible and malicious persecution, she grows serenely on, preaching and teaching the same truths which Christ taught and which He sent His twelve apostles after Him to do.

The marks of the true church are its oneness, its holiness, its catholicity and its apostolicity. These marks cannot be found in any other religious sect. All is confusion, all were founded by men who were dissatisfied with some doctrine, which in the Catholic church is not within the power of man to change. Luther, Swingley, John Knox were monks, whose reason for leaving the Mother Church was mainly for sensuality. In teachings and government the Catholic church is one. She is holy because her founder was holy, namely Jesus Christ, the Man God. Can this be said of the founders of other sects? She is catholic, which means universal, and even her opponents give her the name, because her doctrines are taught and accepted all over the civilized and uncivilized world. The other religions are only the children of the circumstances under which they were born and when disseminated in other countries.

Dr. Pearl B. Magill, Osteopath, rooms 1 and 2, Rowley building, 956W.

tries, they do not fit. And above all the Catholic church is apostolic because each priest can trace his ordination back and back to the time of those twelve poor and lowly fishermen to whom Christ said: "Go ye forth and teach all nations. As the Father sent me, so also I send you." The subject for this evening will be "Perseverance." Tomorrow morning masses will be at 5:30, 6:30 and 7:30.

## Woman's Fads and Fancies

NEW YORK, Feb. 24.—The spring maid has come to town shimmering in silken sheen and even as the song of the first robins is heard on every limb so is the rustle of taffeta heard on every li—er hand. Into a Watteau shepherdess, a Nattier beauty, a gay . . . arquise or a Dolly Varden, the new silk model gowns will turn you for they are all built on the piquant frilled and panned lines of these periods and the silks themselves are adorably sprigged and flowered and striped. You simply can't be plain Jane this season and be in style at the very same time for there isn't a plain silk among the whole bewildering display.

The bright hued Roman striped effects are the smartest of the new silks, while the delicate rainbow tinted taffetas, soft as charmeuse, blooming with tiny garlands and rosebuds tied with true lovers knots or peeping from quaint little shepherdess baskets are perfect for the richings and panniers and Watteau pleats of the present picturesque modes.

Silk crepes striped, flowered, brocaded and embroidered offer alluring inducements among the new materials and a decided innovation is a fabric called "goldine," which is an all cotton material and has a corduroy effect with a heavy velvet looking stripe on a thin crepey background. The same effect in silk is called "railline."

As for the hats those that strive for the greatest heights of favor seem to be the ones that simply strive for the greatest heights. On some the ostrich plumes and feather fancies actually stick up two feet in the air. The straw shapes are hard little tight little affairs that turn up at odd angles close to the crowns when they have any; for the crownless hats worn casually and intermittently by the most extreme dressers in Paris last season have now reached us with a vengeance and in profusion. In most cases they are mere head bands with high upstanding ruches of tulle or moire silk all the way around or just on one side to suit your taste or your race.

Because of the playful custom of the customs to pluck all feathers, by fair means or foul, from the incoming French chapeaux the new models from the Rue de la Paix are shy of the feathers and profuse in the products of Flora or Pomona. Camellias, pink or white, are the smartest flowers, while tiny lemons and life-sized oranges seem to be the favored fruits. Quills being permissible, however, they are used in literally killing ways. Poised at such barbarous angles are they that an unfortunate male or female in close proximity to one of these quilled torture bonnets may not hope to escape without the loss of at least one eye.

Your nasal appendage seems to have become the impregnable boundary line beyond which no really fashionable veil may pass. You must either wear a harem veil whose heavily embroidered net covers the lower half of your face and leaves only your eyes exposed or the newest little complexion veils which are draped over the tiny brimless turbans and high crowned hats and cover the upper part of your physiognomy to the tip of your nose.

See our splendid line of bungalow nets, the popular thing for curtains. White of ecru in any desired width. Horton-Spurgeon Furniture Co.

### IN THE JUSTICE COURT

## HUSBAND GETS HIS JAP WIFE

Man Who Ran Away With Her Will Be Kept in Jail Till Boat Sails

In the war for a Jap woman, an ex-soldier bested an ex-sailor. This morning the ex-soldier carried the woman off in triumph, and the ex-sailor remained in the Orange county jail, making the best of a situation over which he had no control.

The woman, an educated Japanese, was with Milton J. Satow, a former United States sailor, at Orange when her husband, John G. Morgan, a former private in the United States army, arrived. Morgan followed the runaways to the way from Honolulu, and had them arrested.

Morgan persuaded the wife to return to him, and this morning she was allowed to go free. Justice Fullerton of Orange set Satow's preliminary hearing on a high misdemeanor charge for March 6. Morgan and his wife sail from San Francisco for Honolulu, where Morgan has a position as draftsman, on March 3. The case against Satow will be dismissed. Arrangements for the settlement of the affair were made by Deputy District Attorney Kneusel and Attorney Clyde Bishop, with Justice Fullerton approving. The woman went to the apartments at Orange, gathered together her personal belongings, and left with her husband. The Jap woman said that she was formerly a pupil in Honolulu of a well known Santa Ana couple who taught school there.

**Sentenced to Jail**  
A fracas in a poolroom near the Anaheim sugar factory resulted in two men being sentenced to jail today by Justice Howard. The men are David Esplin, sentenced for ninety days, and Pedro Lopez, for thirty days.

**Mexican Elopement**  
Esyevan Contreras was arrested on Lincoln street today by Deputy Sheriff Boynton, on a charge of eloping with Marie Estrada, aged 14. Contreras is 21. They ran away from Delhi Sunday night, the girl climbing out of a window to join Contreras. Justice Cox set the hearing for March 9.

### LOCAL WOMAN NOW A BIG ADVERTISER

—When one of our women customers recently bought five bottles of Harmony Hair Beautifier to give to her friends for Christmas, she started all by herself a mighty big advertising campaign, because not only does each one of the women to whom she gave a bottle of the Beautifier now consider it indispensable for the proper care of the hair, but each of them has been the means of getting several of her friends to use it. As a consequence, if things keep on in this way for a few months longer, we will be selling more of it than of all other hair preparations combined. Sprinkle a little Harmony Hair Beautifier on your hair each time before brushing it. Contains no oil; will not change color of hair; nor darken gray hair.

To keep hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold only at the more than 7,000 Rexall Stores, and in this town only by us, Mateer's Drug Store, 106 W. Fourth, Santa Ana.

## AUTO CUTS CORNER; MADE TO GO ROUND; BACKS INTO A BUGGY

This morning about 11 o'clock P. C. Wedell, who was driving east on Fourth street in his automobile, decided to turn north to Main but in so doing he disregarded the silent behest of the little red-headed crossing officer to "keep to the right." Wedell steered his machine between the sign and the First National Bank. All would have been well had not Officer Lacy also been on the job assisting the iron sign in regulating traffic. Lacy jumped on the running board of the machine and told Wedell to back up. Wedell said he had a bill he wanted to pay first. Lacy said: "You'll drive around and pay your bill afterwards." Wedell reversed his gears and in so doing killed his engine. He jumped out, cranked up, and, having neglected to shift his gears from the reverse the machine backed into a buggy driven by Fred Cousins, who had just turned to one side in order to avoid the automobile.

Results: Auto lamp broken and fender bent; back axle and spoke of one rear buggy wheel smashed.

**Dirt on Sidewalks**  
The police have been asked to investigate the habit of several plowmen in allowing dirt to be thrown from their plows onto the sidewalks. Special complaint was made of work being done in the 1600 block on West Second street.

All are cordially invited to the Christian Science lecture next Thursday evening at the Opera House.

**John McFadden 112-116 E. 5th St**

SANTA ANA, CALIFORNIA, WEDNESDAY EVENING, FEBRUARY 25, 1914.

## SCHOOL BOARDS OF COUNTY TO CONVENE

Trustees' Institute Will Be  
Held Tomorrow in  
Santa Ana

R. P. Mitchell

The annual institute of school trustees of all school districts in Orange county will be held tomorrow at Odd Fellows hall, in Santa Ana. This convention is of importance to the school directors for the reason that authoritative discussions are held concerning matters of school management. Difficulties are made plain, questions that have bothered various boards talked over and the best methods of school management discussed.

The program commences at 10 o'clock tomorrow morning. At noon a dinner will be served to the trustees at Odd Fellows hall.

Among the speakers will be Arthur H. Chamberlain, editor of the Sierra Educational News, of San Francisco, and Mark Keppel, school superintendent of Los Angeles county. County Superintendent of Schools R. P. Mitchell is to discuss "Changes in School Law." Superintendent Mitchell has arranged a program that will be of exceptional value to those attending the meeting.

The program as announced follows:

10 a. m. Organization.

"Changes in School Law"—R. P. Mitchell, Santa Ana.

"The Need of a Parental School for Orange County"—J. H. Scott, county probation officer, Santa Ana.

"Trustee and Teacher in Double

## MEXICAN FAMILY OF REFUGEES IN THE FORT BLISS CORRAL

Hundreds of Mexican families, driven from Ojinaga when General Villa's bloodthirsty troops captured the town, are being cared for, like this one, in the corral at Fort Bliss established by American troops. These men and women and children

know the Mexican troops well enough to understand that if they had remained on the Mexican side they might have been slaughtered in cold blood. They therefore forded the Rio Grande river when Villa was making his final attack on

Ojinaga. There was nothing for the American troops to do but to receive them on the American side. Else there might have been a wholesale butchery. They were required to camp inside a wire fence enclosing a half mile, and there they are fed by Uncle Sam.

Harness"—Arthur H. Chamberlain, San Francisco.

1:15 p. m. "County Examinations"—W. M. Fishback, Orange.

"School Funds"—Mark Keppel, Los Angeles.

"Socializing the Rural School"—Arthur H. Chamberlain, San Francisco.

Opportunity will be given trustees at the close of both the morning and afternoon program to ask questions or present subjects for discussion.

## MISSIONARY TO MEXICAN PEOPLE SPEAKS TONIGHT

Mrs. M. McReynolds, who over fifteen years ago gave up a splendid position as telegraph operator to give her life as a missionary among the Spanish speaking people, and who has been very successful in the salvation of many and in the establishing of churches in different places for these people, will speak tonight at the Church of the Nazarene, corner of Fifth and Barton streets. This meeting will begin at 7:30 o'clock. Mrs. McReynolds has an interesting message, telling of recent work being established among these people at San Francisco and other places. She will also tell of the Spanish schools that have been established in Los Angeles.

## COLLIER LINGAL OVERDUE 5 DAYS—FEARS ARE FELT

SYDNEY, Nova Scotia, Feb. 25.—Apprehension is felt for the safety of the collier Lingal, belonging to the Dominion Coal Company, which left Everett, Mass., on Tuesday for Cape Breton with ninety people aboard. It is five days overdue and it is feared the vessel may have foundered in the ice fields, where six steamers have been delayed by icebergs. The ice-breaker Stanley has been dispatched in search of the Lingal.

## WANTS COAST BOULEVARD TO TURN INLAND

Change of Route Proposed to  
Take Place of that Through  
Gun Club

SPRINGDALE, Feb. 25.—The residents of the Springdale school district, of Wintersburg and of Smeltzer, have organized an improvement society and named it the Springdale Improvement Association of Orange County and great enthusiasm prevails over their declared intention to endeavor to obtain a change of route of the proposed Coast Boulevard by having it diverted inland at Los Patos station, to run East along the Springdale-Wintersburg road to the most practical route South to Huntington Beach. The main purpose of this proposed change is to avoid the extremely expensive building of a road grade through the bay, swamps and bogs of the Bolsa Chica Gun Club. They maintain that the cost of construction and maintenance through the Bolsa Chica would be so enormous that the expenditure of the tax payers' money for that purpose would be wasteful. If there

were no other feasible route the building of the road through there would be justified, but when there is a way to avoid the extreme cost by going just a small distance inland for only a short distance then the enormous cost becomes entirely unjustified.

The directors of the Bolsa Chica Gun Club have opposed a route through their ground and are now opposed to it, so much so that condemnation proceeding must be instituted to get the right of way. That will add largely to the cost because the Bolsa Chica people are prepared to fight the condemnation proceedings to the last minute.

That the cost of maintenance would be great has been clearly shown this winter by the action of the ocean, which has kept the Pacific Electric railway busy with a work train and numerous workmen keeping their tracks free from sand and in repairing washouts of their roadbed. Several times it was necessary, as a safety precaution, to stop their passenger cars on either side of the washed out places and transfer mail and passengers. What happened to the railroad would happen to the boulevard and repairs would have to be made at a much greater cost than it has been for the railway company.

There is this much to be said for the Bolsa Chica route: It would be a couple of miles shorter, would have no corners to turn and would satisfy the sentiment of the real estate boosters who are behind the project. Against the route are to be considered the benefits the county would derive by giving motorists and prospective investors a chance to obtain a view of Orange county's famous peatland celery fields and at the same time be within sight of the ocean nearly all the way until the road took them back to the coast line.

It would not miss any coast towns and would surely benefit Huntington Beach because of giving the farmers of a rich agricultural district easy access to that point, something that is not possible as the roads are at present laid out.

It would save the county thousands and thousands of dollars and benefit many of the taxpayers.

The association is now preparing data to present to the Board of Supervisors to show them good reasons for changing the route. The sentiment of the entire district surrounding and adjoining the proposed routes seems to unanimously favor the Springdale route.

The Springdale boosters say it would be well worth the supervisors' time to inspect the two routes personally and then let economy and quality of road bed rule their action on this matter.

## KILLED HUSBAND, JOINED IN MERRY- MAKING IN 'FRISCO

OAKLAND, Feb. 25.—Mrs. Millie Brown, the wife of Archer Brown, whom she killed four months ago, yesterday went on trial for her life before Judge Ogden. According to her own later statement she killed her husband while he lay asleep. She then went to San Francisco and joined the merry-makers at the Portola celebration, only at the end of the day divulging that she had killed him. Her defense will probably be insanity.

## EXPECTED ROOSEVELT BE URGED FOR PRESIDENCY

CHARLESTON, W. Va., Feb. 25.—It was confidently expected by Republican Roosevelt supporters that the Colonel would be formally urged as Republican candidate for president in 1916, at the open meeting of the Republican state executive committee today.

The avowed program for today was "to make party declarations and prepare and discuss plans for the coming campaign." Harry Curtin, acting chairman of the committee, today reiterated his allegiance to Theodore Roosevelt, saying he supported the Colonel in 1912, and that he hopes "matters will so shape themselves as to make his nomination by the Republican party for president in 1916 a certainty."

Christian Science lecture next Thursday evening by Bliss Knapp, C. S. B., of Brookline, Mass.

## NOT LIKELY TO CALL A VOTE ON BONDS

Matter Not Mentioned at Meeting of the School Board Last Night

Whether by tacit understanding that the matter is closed for the present or for some other reason, the school board did not mention bonds at its meeting last night. There is little question but that a majority of the board is fully convinced that it would be useless to hold an election for school bonds at this time.

At a previous meeting of the board the proposal was made that \$50,000 be asked for the Polytechnic High School and \$25,000 for the grammar schools. At that time the question was seriously raised as to the advisability of calling for bonds. The members of the board all agreed that the improvements suggested should be made, but it was feared that the bonds would not carry, and the schools would have been put to the expense of an election without getting results.

A committee was appointed to make diligent inquiry among citizens to get an expression of opinion as to whether or not the bonds would carry. The general sentiment was in the negative.

## WELL KNOWN READER TO GIVE "BEN HUR"

The people of Santa Ana and vicinity are to have the opportunity of hearing Montaville Flowers give "Ben Hur" at the Opera House next Tuesday evening, March 3. This is next to the last number of the Y. M. C. A. entertainment course.

## MONTAVILLE FLOWERS.

In the presidential campaign of 1908 Mr. Flowers, under the auspices of the national Republican committee, made many of the most important political addresses in Illinois and traveled on the president's special train. At South Bend, Ind., he spoke to 30,000 people, all of which shows Mr. Flowers to be a great orator as well as an impersonator.

Beginning as a boy on the farm, in his teens a teacher in the common schools, at the age of twenty-four he held diplomas from the Ohio Northern University and the Cincinnati College of Music, and he organized and for three years managed the university extension work of Cincinnati university.

General Lew Wallace, the author of "Ben-Hur," attended the rendition of his famous book as given one night by Montaville Flowers in the author's home city, Crawfordsville, Ind. At the close General Wallace put his arm about Flowers and said, "This is by far the best treatment my book has ever had." The Cincinnati Enquirer had this to say about the rendition of this play in this city: "Though a resident of this city and in his fifth appearance here in ten years to the largest audience in the history of the Y. M. C. A. star course, nearly 4,000 people, Montaville Flowers was the extraordinary attraction at Music Hall last night. He presented the monologue of 'Ben-Hur' in a powerful exactment, full of dramatic force and intensity of delivery. In the chariot race scene he reached a climax which is seldom witnessed and which was warmly greeted by the applause of the audience."

MONTAVILLE FLOWERS.

far the best treatment my book has ever had." The Cincinnati Enquirer had this to say about the rendition of this play in this city: "Though a resident of this city and in his fifth appearance here in ten years to the largest audience in the history of the Y. M. C. A. star course, nearly 4,000 people, Montaville Flowers was the extraordinary attraction at Music Hall last night. He presented the monologue of 'Ben-Hur' in a powerful exactment, full of dramatic force and intensity of delivery. In the chariot race scene he reached a climax which is seldom witnessed and which was warmly greeted by the applause of the audience."

Other attractions in his repertoire are "A Christmas Carol," "Les Miserables," "The Battle of Waterloo," "The Merchant of Venice," "Hamlet" and "The Little Minister." It has been truly said of this repertoire that each number is wrought out, like the work of Henry Irving, with great fidelity to the genius of the author, the atmosphere of the composition and the details of the characters in it.

## Keeping up Appearances

The matter of extravagance outranks any problem of the time. We are all trying to keep up with our neighbors, who have more money to spend than we have. It requires courage to say

"We can't afford it."

If you want to succeed, young man or young woman, cut out extravagance. Honesty, energy, and frugality are more necessary than ever today.

Start an account with this bank today, and lay the foundation for a successful future. Your money will be safe, and drawing 4 per cent. interest compounded semi-annually.

## HOUSEKEEPERS Must be Watchful

For great efforts are being made in this vicinity to sell baking powders of inferior class, made from alum acids and lime phosphates, both undesirable to those who require high-grade cream of tartar baking powder to make clean and healthful food.

The official Government tests have shown Royal Baking Powder to be a pure, healthful, grape cream of tartar baking powder, of highest strength, and care should be taken to prevent the substitution of any other brand in its place.

Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world.

From the Los Angeles Financial News

## Worth of Farm Animals

Figures compiled by the Agricultural Department show that the value of farm animals in the United States on January 1 of the current year was \$389,447,000 greater than on the same date in 1913, an increase of 7.1 per cent, the gross value on January 1, 1914, being \$5,891,229,000. Here are the figures:

Horses numbered 20,962,000, an increase of 395,000 over last year; were valued at \$109.32 a head, a decrease of \$1.45, and had a total of \$2,291,638,000.

Mules numbered 4,449,000, an increase of 63,000; were valued at \$123.85 a head, a decrease of 46 cents, and had a total value of \$551,017,000.

Milch cows numbered 20,737,000, an increase of 140,000; were valued at \$53.94 a head, an increase of \$8.92, and had a total value of \$1,118,487,000.

Other cattle numbered 35,855,000, a decrease of 175,000; were valued at \$31.13 a head; an increase of \$4.77, and had a total value of \$1,116,333,000.

Sheep numbered 49,719,000, a decrease of 1,763,000; were valued at \$4.00, an increase of 10 cents, and had a total value of \$200,803,000.

Swine numbered 58,333,000, a decrease of 2,245,000; were valued at \$10.40, an increase of 54 cents, and had a total value of \$612,951,000.

## Demand Millions in Taxes

State taxation officers for Cuyahoga County, Ohio, have filed a written demand on John D. Rockefeller, at his home in East Cleveland, that he pay taxes upon his personal property, estimated at \$900,000,000, the taxes being \$12,000,000. This total is as great as the entire tax duplicate of the county. He has five days in which to act. If he fails to pay, under the law, he is subject to a 50 per cent penalty, which equals a tax of \$450,000,000 property.

Virgil P. Kline, Mr. Rockefeller's attorney, ridiculed the idea, while the tax commissioner was equally strong for it. "Mr. Rockefeller has paid his taxes for the current year in New York, where is his legal residence," said Kline. "He is no more bound to pay personal taxes here than any other legal resident of New York. He was detained here by illness of his wife. He has not been a legal resident of Cuyahoga County for a quarter century."

## About Mining Companies

The Niagara Mining Company held its annual meeting in Santa Barbara and elected directors for the ensuing year, viz.: E. P. Dunn, O. E. Miller, F. A. Conant, Mangus Johnson and Jesse L. Huribut. The company owns valuable mining property in Grass Valley.

The Gold Coast Mining Company has been incorporated in Phoenix, Arizona, by P. H. Hayes and W. E. Milligan with a capital of \$25,000, par value of shares \$1 each.

With a capital of \$1,000,000, the McKinley Mines Company has been incorporated by S. R. Gayton and Granville H. LeMaistre, both of Philadelphia. The property is in Arizona, with an office in Phoenix, the principal office being in Philadelphia.

A. L. Harroun, R. W. Coleman, E. Harroun and C. A. Braley of Phoenix, Arizona, have incorporated the Sonolita Copper Company with a capital of \$6,000,000.

## Value Salt Lake Railroad

The Salt Lake Railroad is the first railroad in the United States to have its physical valuation made under the law passed at the last session of Congress. The work, under the "Department of Physical Valuation" of the Interstate Commerce Commission, begun in Los Angeles Tuesday, when a crew of men brought quietly from San Francisco by R. A. Thompson, member of the board at the head of the department, set to work.

It is understood that until a system has been developed in the actual task of counting the rails, ties and spikes, locomotives, depots, cars and other "physical properties," the work will be pushed forward but slowly.

## Raise on Oil Contract

The Standard Oil Company of California, according to the Maricopa Oil News, has voluntarily raised the price of its recent contract on oil delivered by the Monte Cristo Oil Company from 35 cents per barrel to 40 cents, the level price which it announced last week. The Monte Cristo, it will be recalled, continues the News, was among the first companies that were given the new raise to 35 cents made by the Standard, a raise that instilled new hope among the small producers and started a number of low gravity men to hiven up their wells after allowing them to run down in production on account of the low price prevailing. This is not the first time that the Standard has voluntarily raised the price of an old contract when it preceded by a short time a sharp raise in the field price.

## December Earnings of Southern Pacific

The December, 1913, earnings statement of the Southern Pacific Company shows a decrease in gross of \$97,985, as compared with December, 1912, while the decrease for the six months ended December 31, 1913, is \$3,680,419. The figures follow:

	December 1913	December 1912
Gross earnings	\$11,253,510	\$12,151,201
Operating expenses	7,718,447	8,163,840
Taxes	845,982	336,838
Taxes and expenses	8,564,429	8,500,678
Revenue	2,689,081	3,650,523

Six months ending December 31st—

	1913	1912
Gross earnings	\$73,420,171	\$75,648,104
Operating expenses	46,886,295	46,041,970
Taxes	3,315,681	2,918,870
Taxes and expenses	50,201,976	48,960,840
Revenue	23,218,195	26,687,264

## Report on Smelter Combine

A decision probably will be reached soon by the Department of Justice as to whether an anti-trust suit shall be filed against the American Smelting and Refining Company. Assistant Attorney-General Todd has received a report on the investigation of the company, begun under former Attorney-General Wickersham. It was learned that knowledge that its affairs were under investigation had not impelled the corporation to negotiate with the Government toward reorganization.

## Farm Land Bank System

There was introduced on Thursday in both houses of Congress a bill which provides for the establishing of a national farm land bank system. The bill as introduced provides for the creation, operation and supervision of a national farm land bank system, through which the farm land banks to be established under the terms of the act, or to be created through the federalization of existing state farm mortgage concerns and farmers' banks, shall become the new rural credit system of the United States. Banks under the proposed law are prohibited from engaging in general banking business. They may not loan on the stock or bonds of fellow bankers in the system. Their loaning power is restricted to fifteen times their own capital and surplus.

The measure is tentatively the administration bill for the establishment of a national rural credit system. It represents the result of the labors of a United States commission appointed by President Wilson last April to investigate the rural credit system in European countries and report thereon.

## Will Visit This Port

Six steamship companies, owning 420 steamships, will, upon the completion of the Panama Canal, make Los Angeles a port of call. They are the Union Steamship Company of New Zealand, owning a fleet of seventy-one passenger steamships, now operating from San Francisco to Tahiti and the South Sea Islands; Royal Mail Steam Packet Company, with a fleet of eighty-five ships, operating from London to Colon, South America and the West Indies; Nippon Yusen Kaisha, the Japanese Mail, owning seventy-four steamers, operating from Japan to Seattle and Asiatic ports; Peninsular and Oriental Steam Navigation Company, with a fleet of ninety-six vessels, operating in all parts of the world; Messageries Maritimes, the French mail, with eighty-four steamers, operating in all parts of the world, and the Lamport and Holt Line, employing sixty-four ships in traffic from New York to South America and Europe.

## Largest Oil Tanker Launched

The largest oil tanker ever built has been launched at Newport News, Va., the John D. Archbold. The vessel has every modern device—double the lifeboat capacity required by the Government; is equipped to burn oil or coal and though she will carry 67,500 barrels of oil, her draught is such that there are few ports in the coastwise trade she will be unable to enter. One of her devices enables the captain on the bridge to know immediately whether the engine room is executing his orders.

## Exports of Canned Goods

Exports of canned goods from the United States during the year 1913 approximated the \$20,000,000 mark, according to figures of the Department of Commerce. Meats, fruits, vegetables, dairy products and fish made up the principal articles of export. They were shipped to all parts of the world. Salmon, chiefly of Alaskan production, was the largest single item, the quantity of canned salmon sent abroad alone aggregating practically 80,000,000 pounds, valued at \$7,000,000. Fruits come first, and then meats and vegetables. Canned beef showed a remarkable falling off in exportation, having been about one-half as much as in 1913.

## To Make Diesel Motors

The contract made with the Union Tool Company of Los Angeles, which gives the corporation exclusive right to manufacture Diesel motors and sell the same on the west coast of North and South America, will necessitate an expenditure of \$500,000 at once to enlarge the plant. The capital of the company will be increased from \$1,500,000 to \$2,500,000, according to Edward Double, president and general manager of the company.

## Trade Tour Latin America

Headed by Edward N. Hurley, a prominent manufacturer of Chicago, a party composed of fifty members of the Illinois Manufacturers' Association left New York today for a three months' tour of the principal countries of South America. The Secretary of State, Mr. Bryan, and the Secretary of Commerce, Mr. Redfield, are giving their support to the desire of this party to observe South American conditions at first hand and to become more familiar with the business men of the sister republics.

## Farming in Alaska

Farming in Alaska, according to the Agricultural Department, is possible on 100,000 square miles of that territory. Varieties of wheat, oats, rye, barley, potatoes and many other vegetables have matured every season since the Department started its work at its two experiment stations. One of these stations is about seventy-five miles from the Arctic circle. Poultry raising, particularly chickens, is also proving feasible.

## Deposit Guarantee Bill

A bill that will permit national banks to avail themselves of State laws providing for the guaranteeing of deposits has been introduced in the United States Senate by Senator Norris of Nebraska. It has been referred to the Banking and Currency Committee, which has a sub-committee now engaged in drafting a deposit guarantee bill in co-operation with a House sub-committee.

## New Panama Railroad

At a cost of \$1,600,000 Panama will build a railroad to extend from Pedregal, on the coast, to David, and thence in two branches to Boquete, to the north, and La Concepcion, to the west, a total distance of sixty miles. Contract calls for American construction. R. W. Hebard & Co. of New York being the contractors. The road will be narrow gauge. The work, which will be begun at an early date, has the approval of Colonel Goethals and other canal engineers.

## Prisoners Counterfeiters

While engaged in making counterfeit 5-cent pieces, five convicts in the Illinois State Prison at Joliet were caught. The leaders were a tinsmith and a machinist.

## First Field Gun Received in Juarez by Rebels After Lifting of Embargo

When President Wilson lifted the embargo on the importation of arms and ammunition by the rebels of Mexico they at once began preparations for the landing of the supplies they had on the American side to smuggle across the Rio Grande river. This photograph shows the first field gun shipped across to Juarez and received by General Villa, the most prominent of the rebel chiefs. Villa, of course, was the first of them to benefit by the new order. Being in Juarez at the time, he began to hurry his arms and ammunition across the border. By this time he may have sufficient rifles and field guns to equip an army for his promised march on Mexico City.

## MODERN TENDENCIES OF THEOLOGICAL THOUGHT

Paper Read Before the Santa Ana Present Day Club and the Southern California Baptist Ministerial Association at Los Angeles, by Rev. Otto Russell, Pastor of the Santa Ana First Baptist Church.

### PART FOUR—BACK TO THE BIBLE FOR AUTHORITY AND GUIDANCE IN THE PRESENT PROBLEMS OF LIFE

In the social and Christological discussions of these days we find an unmistakable eagerness to know more about Christ; not satisfied to take what the apostles' creed, or indeed any creed says, but want to know what God says about it and that direct. The world wants to know all it can learn about Jesus as a citizen, what kind of a childhood and youth and manhood was his. Many are thinking, like Schleiermacher, that the apos-

ties' creed or any other creed which may have been sufficient at some one time is not sufficient today to set forth the content of the modern belief in the Divinity of Christ.

Dr. Chailer Matthews said: "In search for the method by which the gospel can be made more influential in our modern world shall we recast our inherited beliefs, or shall we begin with the New Testament itself and, as it were, repeat in our own day the process by which the gospel has always been brought into intellectual harmony and expression in earlier periods? I have no hesitation in declaring for the second alternative. The great demand today is not for a manipulation of our inherited theology into some form more acceptable to our modern ways of thinking. It is rather for a frank disregard of inherited dogma, except by way of historical evaluation and a return to the primitive gospel itself—to the gospel that founded Christianity, conquered the Roman empire and embodies the continuous realities of the spiritual life. True, the appreciative mass of doctrine, if the expression may be pardoned, is one element of the situation to which the gospel must be presented, in that it affects the method of presentation, and suggests caution in adopting a radical programme of illumination. But this mass of doctrine does not constitute in itself the substance of a truly spiritual Christianity. A sense of the truth of this assertion is the real cause of the widespread demand to go back to Christ; or, rather, to bring Christ back to us. Inherited orthodoxy is so colored by outgrown philosophies, prescientific conceptions, outgrown political ideals and prejudices, as to be unusable by many an earnest man or woman. To remodel the old house is more expensive than to tear it down and use such materials of it as are sound in erecting a new building." (Ps. 6; 7; Matthew 9, 44). For my part I am perfectly ready to substitute something better for the gospel as soon as it appears; but I am as yet unable to imagine anything more final than the religion of Jesus as found in the New Testament. Christianity as we know it still fails to represent that religion. Jesus still leads the spiritual life. The religion of the future must be evangelical or it will be socially powerless."

Dr. J. D. Burrell, of New York, in a personal letter, said: "In conversation with ex-President Patton of Princeton not very long ago he said to me, 'We are, in my opinion, on the verge of a slump into Unitarianism in our Protestant churches.' In this I do not wholly agree with him. In point of fact, there has always been a tendency on the part of loose-jointed church members to evade in some manner the great fundamental proposition as to the Godhood of Jesus. The tendency is no more pronounced in these days than it has always been. The doctrine is fundamental to our Christian faith. Christ was an impostor if he was not what he claimed to be. I am convinced that a denial of the ultimate authority of the scriptures is bound to lead to a denial also of the deity of Christ. The two great doctrines go together. The trustworthiness of the written word and of the incarnate word."

Dr. M. B. Shaw, of Los Angeles, in a personal letter, said: "The tendency of theological thought is all back to the Bible and a higher conception of its inspiration. This is not merely a thought, but has come to me from a country-wide acquaintance with the church and an up to date contact with religious literature."

Dr. R. J. Campbell, of London, in reply to a letter said: "All I will say is that the tendency in the religious world with which I am most familiar is in the direction of liberal evangelicalism. I detect a more spiritual note, and a re-emphasis upon the transcendental value of the personal-

ity and revelation of Jesus Christ. The social gospel without this is a failure. There will be no kingdom of God on earth except as a consequence of a recovered sense of the eternal."

Dr. Carter Helm Jones, of Seattle: "Take it all in all, I think that the tendency of the present theological thought is steadily making toward greater loyalty to Jesus Christ, the divine Son of God, and to helpful service to our brother man, both at home and abroad."

Dr. Faunce, of Brown University, in a letter said: "We all feel that God within us rather than God over us is now the trend of thought; neither, of course, to the exclusion of the other. The results, however, of this new point of view in our own conception of human responsibility of sin and redemption and immortality, we have scarcely begun to understand."

Dr. Nehemiah Boynton, of New York, in reply to a letter, said: "The present day tendency is the spiritual interpretation of truth and its application to life. The world is so busy with the practice of religion, as not to be profoundly interested in the principle of it. In a word, my judgment is that the present tendency of theological thought is toward the spiritual interpretation of it, rather than the casting of it in any metaphysical or philosophical mold."

Gipsy Smith, in answer to a letter said: "I have no hesitation in saying that the tendency of theological thought today is back to Christ and His dear saving gospel. This is true with the best and ablest scholars on five continents."

My conclusion is: 1. That the tendency away from credal authority is exceedingly healthful and helpful. Men will not be bound today by the thinking of centuries ago. Since they are not thus bound in other things we may not expect them to be in theological thinking. More and more men are realizing their ability and privilege to read and interpret for themselves. There is today a revolution in religious thinking and a breaking of mental shackles.

2. That scientific investigation assists men in placing proper value on some things that pertain to theological thinking. Science teaches us not to make a belief in a miracle the supreme test of our religious faith. For if a man lacks vision he is likely to challenge the miracle, and we may find more difficulty in convincing him of the miracle than of the miracle worker; while on the other hand, the mind

that is imaginary will readily see the miracle and possibly more too. Science is the handmaid to theology, and not sufficient of itself alone, for it needs the help of faith and ministry. Jesus did not base his claims on miracle alone. When John, the Baptist, sent to him to ask, "Art thou he that should come, or do we look for another?" Jesus answered and said unto them, "Go and show John again those things which ye do hear and see: The blind receive their sight, and the lame walk, the lepers are cleansed, and the deaf hear, the dead are raised up, and the poor have the gospel preached to them." When we take miracle and ministry we have the Christ; so when we take science and faith we have the complement to soul investigation.

3. That every age and century presents new problems. One is not solved before another is presented, or in the solving of one we quicken many more for solution. The longer the age of man, the more complex becomes civilization with her increased problems. These must be solved, not by iridescent dreaming, but by heroic endeavor. The church must either gird herself for the task or she will be girded and led whither she would not go. I do not agree with a certain speaker I heard addressing a company of preachers recently, when he said, "As a student of eschatology I have nothing to do." To me there was never a time when there was more to do, never a time when greater service was demanded from the church in the social world. No, we are becoming more and more convinced that the philosophy of the religion of Jesus must be adopted as a practical creed for the conduct of business, and man's all round dealing with man, and thus will be found the speediest and sanest and surest solution of the difficulties which are now aggravating men's hearts and exciting men's minds in the social, industrial and political revolutions.

4. The tendency away from credal authority must rest somewhere and that somewhere is not in the declarations of men, but in the revelation of God—God's word, the Bible. Neither Roman Catholicism nor Christian Science will long prevail if they continue to hold to the policy of not allowing men to read and interpret for themselves, their minds unshackled either by the priests or Mrs. Eddy's interpretation of the reading; because the demand of the modern mind is to read, think and interpret for itself the Bible, which still remains the rule of faith and practice.

And the Christ is still the founder of the church. Faith, hope, and love came from Him and is still centered in Him. We have not gotten so spiritually minded that we no longer need a messenger from heaven, nor are our morals so perfect and we so self-sufficient that we no longer need a divine ideal. Our humanitarianism and philanthropy has not so completely mastered us that we need no superhuman counselor and divine example. Nor are we so free from sin and so far developed in soul achievement that we no longer need Christ. Jesus, a Savior; neither so sure of immortality that we do not need one who masters death and is master over the grave. As Dr. Henry Van Dyke said: "Never did mankind crave more deeply the assurance that God, the unseen, almighty spirit is in Christ; that God, the Eternal Father, is like Christ. Never did His revelation of the brightness of the Father's glory seem more desirable and adorable than today. Never was there an age in which it was sweeter and more needful to hear above the tumult of noises and clash of opinions His gentle and authoritative voice saying, 'I am the resurrection and the life.' If the church of today loses that voice she will lose her life."

## Rheumatic Twinges

yield immediately to Sloan's Liniment. It relieves aching and swollen parts instantly. Reduces inflammation and quietest agonizing pain. Don't rub—it penetrates.

## SLOAN'S LINIMENT

Kills Pain

gives quick relief from chest and throat affections. Have you tried Sloan's? Here's what others say:

**Relief from Rheumatism**  
"My mother has used one 50c. bottle of Sloan's Liniment, and although she is over 83 years of age, she has obtained great relief from her rheumatism."—Mrs. J. E. Lindbergh, Gilroy, Cal.

**Good for Cold and Croup**  
"A little boy next door had croup. I gave the mother Sloan's Liniment to try. She gave him three drops on sugar before going to bed, and he got up without the croup in the morning."—Mr. H. Strauge, 322 Elmwood Ave., Chicago, Ill.

**Neuralgia Gone**  
"Sloan's Liniment is the best medicine in the world. It has relieved me of neuralgia. Those pains have all gone and I can truly say your Liniment did stop them."—Mrs. C. M. Dwyer of Johannesburg, Mich.

At all Dealers. Price 25c., 50c. & \$1.00  
Sloan's Instruction Booklet on Rheumatism sent free.
